During the month under report, a disease broke out among cattle in the Nagamangala Taluk called by three distinct names, *vis.*, Shivalige, Shivangi and Tyavale. The diagnosis given of the disease is as follows. Pustules first appear on all four legs; after a day or two they spread all over the body; and, on being licked by the rough tongue of the animal, they form into regular ulcers which ultimately breed maggots. The disease proves fatal in 15 or 20 days, 3 or 4 days prior to which the affected animal refuses both fodder and water. This disease is being treated by a Gauda of Kebbe Koppal in the Maddur Taluk of the Mysore District, who administers some vegetable compound both internally and externally; and it is said that his treatment has been so successful that in some instances a cure has been effected in three days.

The Hymns of the Rig-Veda, in the Samhita and Pada Text, by Professor F. Max Müller, M. A., two Volumes.—*Price, Rs. 24; packing and postage, Re. 1—12.*

* The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*
